## Part 1 Introduction

<b>Banking Supervision and COVID-19: A Foreword .....</b>	<b>1</b>
I. The Corona Crisis .....	1
II. The broader context at a glimpse .....	2
III. What does this mean for banking supervision in Europe? .....	3
IV. This book .....	4

## Part 2 The European Perspective – Measures on the European Level

<b>A. The reaction of the EU legislator – <i>quick fix</i> amendments to the Capital Requirements Regulation in view of the Corona pandemic (<i>Lefterov</i>).....</b>	<b>7</b>
I. Context of the measures .....	7
II. Description of the pre-existing (Capital Requirements Regulation) CRR regime and the Commission proposal for quick fixes .....	7
1. Accounting for Corona-related losses – IFRS 9 and its impact on regulatory capital ..	9
a) The IFRS 9 implementation in the Union .....	9
b) The static and dynamic component of the change in ECL provisions .....	10
c) The proposed change to the IFRS 9 transitional arrangements.....	10
2. Treatment of public guarantees .....	11
a) Treatment of NPEs and the prudential backstop .....	11
b) The proposed transitional regime for NPEs guaranteed by public sector entities ...	11
3. Treatment of central bank exposures under the leverage ratio.....	11
a) The Basel discussions .....	11
b) The first EU debate and the solution in CRR 2 .....	12
c) Developments relating to the leverage ratio .....	13
d) The changes proposed by the Commission .....	13
4. Date of application of other provisions .....	14
a) Leverage ratio buffer.....	14
b) Treatment of certain software assets .....	14
c) Treatment of certain loans backed by pensions or salaries, SME supporting factor and the infrastructure supporting factor .....	14
III. Final CRR amendments adopted by the co-legislators on 24 June 2020 .....	15
1. Discussion by the co-legislators.....	15
2. IFRS 9 implementation.....	16
3. The prudential backstop and minimum loss coverage for NPEs guaranteed by public sector entities.....	17
4. The exclusion of central bank exposures from the calculation of the leverage ratio....	17
5. Changes to the treatment of exposures to governments and central banks .....	18
6. Market risk under the internal model method .....	18
7. Distributions of dividends and remunerations .....	19
8. Other elements of the amending regulation .....	20
IV. Lessons learned .....	20
1. The substance of the adopted measures .....	20
2. The role of the Commission and the supervisory authorities in the legislative process	21

<b>B. Supervisory measures taken in reaction to the corona crisis – an overview (Gruber)</b>	23
I. Introduction	23
II. Analysis of the supervisory measures taken by the ECB	25
1. Use of capital buffers	25
2. Change to the composition of the Pillar 2 requirements	27
3. Release of liquidity buffers	27
4. Restrictions of dividends and buy-backs	28
5. Measures related to credit risk	30
a) Measures concerning the treatment of NPLs	30
b) Guidance mitigating the effects of IFRS 9	31
6. Temporary reduction of capital requirements for market risk	32
7. Operational relief	33
III. Preliminary assessment of the supervisory measures taken by the ECB	34
1. Effectiveness of the supervisory measures taken by the ECB	35
2. Reactions of external stakeholders	35
3. Key characteristics of the ECB's measures	36
a) Common objective	36
b) Flexibility but no forbearance	37
c) Temporary nature of the supervisory measures	37
d) Cooperation with other authorities	38
IV. Conclusion	38
<b>C. Dividend Recommendation (Riso/Lackhoff)</b>	40
I. The content of the Dividend Recommendation	40
1. Material scope of application	40
2. Personal scope of application	41
3. Recommendation to National Competent authorities (NCAs) in respect of less significant institutions (LSIs)	41
4. Interaction with other legal instruments	42
II. Purposes pursued by the dividend recommendation	43
1. Specific purposes pursued by the dividend recommendation	43
2. Broader conceptualization of the function of dividends	44
3. Outlook for future developments	47
III. Why (only) a dividend recommendation?	48
IV. Level of application	49
1. Subsidiaries of an SSM group	49
2. Parent undertaking outside the SSM	50
V. Material scope of application	51
1. Distribution of dividends	51
2. Share buy-backs	52
VI. Practical application	53
1. Issues relating to the material scope of application	53
2. Issues relating to the personal scope of application	55
<b>D. IFRS 9 and the COVID-19 Pandemic (Grünberger/Vandervoort)</b>	57
I. Introduction	57
1. A summary of critical issues related to IAS 39	57
2. ECB letter to banks	57
II. Impairment under IFRS 9	59
III. Collective assessment	61
1. The Standard	61
2. Practice	64
3. ECB Guidance	66
IV. Macroeconomic forecasts	67
1. The Standard	67
a) Reasonable and supportable information	67
b) PIT and TTC	68
c) Macroeconomic forecasts	69
d) Macroeconomic scenarios	70

2. Practice .....	71
a) Macroeconomic forecasts .....	71
b) Macroeconomic Scenarios .....	71
c) Model overlays .....	72
3. ECB Guidance .....	72
<b>E. Measures regarding internal models (Lauter) .....</b>	<b>74</b>
I. Internal models – a short recap .....	74
II. Operational relief measures regarding internal models .....	75
1. Extension of deadlines for internal model related obligations .....	75
2. Postponement of issuance of new internal model related decisions .....	76
3. Extended timeline for supervisory benchmarking .....	76
III. Measures addressing internal models for specific risk types .....	77
1. Compensation of Market Risk multiplier increases due to overshootings .....	78
2. CRR2 quick fix .....	79
IV. Impact of other support measures on internal models .....	80
V. Assessment of requests for initial approval, material changes or extensions .....	81
VI. Conclusion .....	81
<b>F. The legal effects of national emergency laws suspending time-limits on ECB supervisory procedures (Almhofer) .....</b>	<b>82</b>
I. Introduction .....	82
II. Sources of administrative law establishing time-limits for ECB supervisory procedures .....	83
1. The notion of “time-limits” .....	83
2. Time-limits in EU (soft) law applicable to the ECB .....	84
a) General principles for determining procedural rules applicable to the ECB .....	84
b) EU primary, secondary and tertiary law .....	84
c) EU soft law .....	85
3. Time-limits in national law applicable to the ECB .....	87
III. National laws on suspending time-limits in supervisory procedures .....	89
1. Purpose and modalities of suspending time-limits .....	89
2. Example: Laws and regulations suspending time-limits in Austria .....	90
3. Application of national suspension measures by the ECB .....	92
IV. Conclusion .....	94
<b>Part 3</b>	
<b>The national perspective – Measures on the national level</b>	
<b>G. Supervisory measures in response to the COVID-19 pandemic in France (Bonnard) .....</b>	<b>97</b>
I. Background .....	97
1. The economic and legal environment .....	97
2. Prudential impact on credit institutions .....	99
II. Relations with the ACPR .....	100
1. Business continuity .....	100
2. Temporary flexibility for submission of national prudential reporting, and public disclosure .....	101
3. General observations .....	103
III. Measures intending to promote the granting of loans to corporates .....	104
1. Release of capital buffer .....	104
2. French State Guarantee .....	104
a) General description .....	104
b) Prudential treatment .....	106
3. ACPR request not to pay dividends .....	109
IV. Commitments undertaken by the banking sector .....	111
<b>H. Supervisory measures in response to the COVID-19 pandemic in Germany (Witte) .....</b>	<b>114</b>
I. Introduction .....	114
II. Legal nature of the announcements made by BaFin and Bundesbank .....	115
1. Scope of BaFin’s competence for the issuance of supervisory interpretations .....	115
2. Legal effects arising from the publications made by BaFin .....	116

3. The role of MaRisk .....	117
III. Overview of the individual changes pronounced for supervision.....	118
1. Quantitative supervision .....	118
a) Changes to capital ratios and pillar II capital measures .....	118
b) Changes with regard to credit risk for individual exposures .....	120
c) Changes with regard to large exposure limits .....	122
d) Changes in liquidity supervision .....	123
e) Changes in stress testing .....	124
2. Qualitative supervision .....	124
a) Changes to requirements for governance arrangements .....	124
b) Changes to processes, in particular lending standards.....	124
c) Changes to qualitative pillar II measures .....	125
d) Changes in recovery and resolution planning.....	125
e) Changes to reporting and disclosure.....	126
f) Changes to the working modalities of supervisors .....	127
3. Non-prudential matters.....	127
IV. Pending regulatory projects .....	128
V. Conclusion .....	128
<b>J. Supervisory measures in response to the COVID-19 pandemic in Italy (Pala/Droghini) ..</b>	<b>130</b>
I. Introduction.....	130
II. Italy's legislative provisions on banking supervision in response to the Corona crisis ....	131
1. The general suspension of terms and deadlines .....	131
2. The expansion of the "Golden powers" regime .....	133
3. Support measures for banks in Law Decree No 34/2020 .....	134
III. Supervisory measures adopted by the Bank of Italy to confront the pandemic .....	135
1. The specific extensions of terms and deadlines in the supervisory framework .....	135
2. Capital and liquidity reliefs.....	140
3. Recommendation on dividend distribution and remuneration policies .....	141
4. Banks' contingency strategies .....	142
5. Customer protection and fight against financial crime.....	143
IV. Emergency national measures on banking resolution .....	145
V. Conclusions.....	146
<b>K. Supervisory measures in response to the COVID-19 pandemic in Spain</b>	
<b>(Fernández Rupérez) .....</b>	<b>148</b>
I. Overview.....	148
II. COVID-19 driven legislative measures implemented relevant for banks.....	149
1. Suspension of administrative deadlines and time limits.....	149
2. The Mortgage Payment Moratorium .....	150
a) Policy Objectives .....	150
b) Scope of the Mortgage Payment Moratorium .....	150
aa) Objective scope .....	150
bb) Subjective scope .....	151
cc) Effects of the of the Mortgage Payment Moratorium .....	152
d) Application .....	152
e) Abuse of right provisions .....	152
f) Ad-hoc Reporting Obligations .....	153
g) Eligibility of the Mortgage Payment Moratorium for the purpose of avoiding the classification of exposures as <i>forbearance</i> .....	153
h) Impact of the Mortgage Payment Moratorium .....	153
3. Unsecured Loans Payment Moratorium .....	154
a) Policy Objectives .....	154
b) Scope of the Unsecured Loans Payment Moratorium .....	154
aa) Objective scope. ....	154
bb) Subjective scope .....	154
c) Effects of the of the Unsecured Loans Payment Moratorium .....	155
d) Application .....	155
e) Abuse of right provisions .....	155

f) Ad-hoc Reporting Obligations.....	156
g) Eligibility of the Mortgage Payment Moratorium for the purpose of avoiding the classification of exposures as <i>forbearance</i> .....	156
h) Impact of the Unsecured Loans Payment Moratorium .....	156
4. Regulation of Banking Sector Moratoria .....	156
a) Main features: scope, effects, pre-contractual obligations, and ad-hoc reporting.....	156
b) Interaction between the Banking Sector Moratoria and the legislative moratoriums .....	157
c) The Banking Sector Moratoria subscribed.....	157
d) Effects of the Mortgage Payment Moratorium for the purpose of avoiding the classification of exposures as <i>forbearance</i> .....	158
e) Impact.....	158
5. Other legislative measures.....	158
a) Amendments on financial reporting rules for credit institutions.....	158
b) State-backed guarantee scheme.....	159
aa) Policy Objectives.....	159
bb) Different tranches of the Guarantee Scheme.....	159
cc) Key features of the Guarantee Scheme.....	160
dd) Prudential treatment of the guarantees granted under the Guarantee Scheme.....	161
ee) Compatibility with State Aid rules.....	161
c) Measures protecting the national financial infrastructures from foreign investors..	161
III. COVID-19 driven supervisory measures taken by Banco de España.....	162
1. Banco de España applies the ECB recommendation on dividend distribution to the credit institutions under its supervision .....	162
2. Supervisory and accounting measures relating to the flexibility envisaged in the regulatory framework in view of the COVID-19 outbreak of 30 March 2020.....	163
a) Supervisory Measures.....	163
b) Accounting Measures.....	163
3. Impact of ECB's prudential recommendations on less significant credit institutions in Spain.....	164
4. Banco de España applies the flexibility available in the regulations on minimum requirements for own funds and eligible liabilities (MREL), in view of the impact of COVID-19 .....	165
IV. Conclusion .....	165

## Part 4

### The banks perspective – prudential and legal issues

L. The view from a Significant Institution ( <i>Bauer-Weiler/Scarra</i> ) .....	167
I. Executive summary .....	167
II. Effectiveness of COVID-19-related measures.....	168
III. Crisis specific ad-hoc reporting expectations .....	170
IV. Relevance of globally consistent measures from supervisors and policymakers .....	171
V. Fungibility of resources and fragmentation of the playing field .....	172
1. Using buffers in the current environment .....	172
2. Distribution restrictions.....	174
VI. Pro-cyclicality .....	175
1. IFRS 9 transitional arrangements.....	175
2. VaR back-testing .....	177
VII. A possible way forward.....	177
M. Impacts of regulatory and supervisory measures on Less Significant Institutions (LSIs) during the COVID-19-crisis ( <i>Hofmann/Achtelik</i> ) .....	179
I. Introduction.....	179
II. Oversight of LSIs in general.....	180
1. What are LSIs?.....	180
2. Supervision of LSIs in the SSM .....	180
3. Specific characteristics of LSIs .....	181
III. Supervisory and regulatory reliefs in reaction to corona crisis for LSIs .....	181
1. Specific roles of EBA, ECB and NCAs in the crisis.....	182

2. Targeted relief measures for LSIs.....	182
a) Relief measures regarding capital requirements .....	182
b) Relief measures regarding liquidity requirements .....	183
c) Relief measures regarding risk management and governance requirements .....	184
d) (Relief) measures regarding reporting requirements .....	184
e) Relief measures regarding non-performing exposures (including payment moratoria) .....	185
f) Relief measures regarding the operational aspects of supervision.....	186
g) Dividend distribution for the financial year 2020 and remuneration .....	187
3. Digression: SRB and ex-ante contributions in 2020 .....	188
IV. Legislative measures.....	189
V. Conclusions.....	190
1. Importance of NCAs.....	190
2. Outstanding measures.....	191
3. Maintenance of relief measures .....	191
4. Procyvical effects of the crisis .....	192
5. Banks are part of the solution for this crisis .....	192
<b>N. Key regulatory and market challenges for financial institutions</b> (Boersch/Erb/Lellmann/Woyand).....	193
I. Economic Background .....	193
1. The anatomy of the crisis.....	193
2. Impact of COVID-19 on the economy.....	194
a) Recession and recovery.....	195
b) Short- and long-term challenges .....	195
II. Regulatory challenges for banks during the crisis .....	196
1. Impact on banks.....	196
a) Risk Management .....	196
b) Accounting.....	197
c) Regulation and Reporting .....	197
2. Overview of regulatory actions and their objectives.....	197
a) Capital and Liquidity.....	197
b) Asset Deterioration .....	200
c) Operational Relief Measures.....	201
3. Implications for banks .....	202
III. Upcoming challenges for the European banking industry in the long-run .....	203
1. Increasing need for consolidation .....	204
a) Situation before COVID-19: European market subject to overcapacities and low profitability.....	204
b) COVID-19 puts further pressure on bank profitability .....	205
c) M&A activity implies several challenges at bank level.....	206
2. Growing pressure to reshape business models.....	208
a) Situation before COVID-19: Ongoing transition process towards novel business models.....	208
b) COVID-19 accelerates the need to adjust business models .....	209
c) COVID-19 further compresses banks' net interest margins.....	210
d) COVID-19 intensifies cost optimization to compensate for declining income levels .....	210
e) COVID-19 leads to fiercer competition from the non-bank financial sector .....	211
3. Accelerated digital transformation.....	212
a) Situation before COVID-19: Digital maturity differs across European banking markets .....	212
b) COVID-19 drives digital transformation .....	213
c) Stronger replacement of cash by digital payments.....	213
d) Online and mobile channels gain in further importance .....	215
e) Accelerated digital transformation implies challenges at bank level.....	216
IV. Conclusion .....	216

## Part 5

### A look ahead and around

<b>O. The implications of State aid rules and the resolution regime on the recapitalisation of banks by means of public funds (von Bonin/Heinz)</b>	219
I. Introduction	219
II. Addressing the impact of the COVID-19 pandemic on the solvency of banks	220
1. Heightened risk of increase in defaults in credit portfolios	220
2. Sources and instruments of funding to strengthen the capital base	220
a) Public investment as source of funding	220
aa) <i>Pari passu</i> with private shareholders/on market terms	220
bb) Public support measures where an institution is unable to raise capital privately in markets	220
b) Eligibility of instruments of funding as own funds	221
III. Compatibility of public investment with State aid rules and conditionality	221
1. Introduction and overview on State aid measures in the banking sector	221
2. COVID-19 and public support to banks	223
a) No-aid investment – <i>pari passu</i> on market terms	223
b) Banks may also receive so-called “disaster aid”	223
c) State aid assessed under the banking rules	224
aa) The normal rules for State aid in the form of recapitalising banks	224
bb) COVID-19 related modifications to the rules for aid to financial institutions	225
III. Compatibility of public investment with resolution regime	226
1. Conditions for resolution: Failing or likely to fail?	226
a) Extraordinary public financial support	226
b) Precautionary recapitalisation	227
aa) Confined to solvent institutions	227
bb) Limited to address a capital shortfall under adverse scenario of a stress test	228
cc) Conditional on final approval under State aid rules	229
2. Implications of a “failing or likely to fail” assessment	230
V. Conclusions	230
VI. Excursus: Asset relief measures	231
1. Introduction	231
2. Public intervention in asset relief measures	232
a) No-aid Solutions	232
b) Impaired Asset Measures	233
c) Asset Management Companies	234
<b>P. Remuneration (Glasow/Schaer)</b>	236
I. Introduction	236
II. General principles	238
1. Variable remuneration: Pay for risk-adjusted performance	238
2. Bonus pool: Maintaining a sound capital basis	239
3. Interplay between regulatory requirements and contract and labour law	241
III. Implications for the 2020 bonus decision in respect of the bonus for 2019	242
1. Generally, no impact of COVID-19 on target achievement for 2019 bonus	242
2. Potential implications for determination of bonus pool for 2019 bonuses	242
IV. Implications for variable remuneration for performance in 2020	243
1. Adjustment of performance parameters	244
2. Award: Use of so-called modifiers at institutional (or group) level	245
3. Award: Granting and vesting of variable remuneration (ex-ante risk adjustment and ex-post risk adjustment)	246
4. Determination and distribution of the bonus pool	247
a) Determination of the bonus pool: regulatory affordability test	247
b) Alignment of bonus pool determination with contract and labour law considerations	248
aa) Implementation of Sec. 7(2) IVV into the remuneration system	248
bb) Equitability of bonus pool determination under consideration of the affordability test	249

c) Distribution of a reduced bonus pool.....	250
V. Possible amendments to remuneration systems in reaction to COVID-19 .....	250
1. Increase of deferred variable remuneration and pay-out in equity instruments .....	250
2. Increased use of qualitative and relative performance parameters.....	251
3. Refrain from creating obligations to pay variable remuneration.....	252
VI. Conclusion .....	252
<b>Q. The dispute between <i>Bundesverfassungsgericht</i> and European Court of Justice concerning the legality of asset purchases by the ECB – what does this mean for the Pandemic Emergency Purchase Programme? (<i>Behrens/Schadt</i>) .....</b>	<b>254</b>
I. Introduction.....	254
II. The PEPP as temporary crisis intervention .....	255
III. OMT and PSPP as background .....	256
1. The OMT programme .....	256
2. The PSPP .....	257
3. In comparison: the PEPP .....	258
IV. The ECB's public sector purchase programmes in the courts.....	259
1. <i>Bundesverfassungsgericht</i> vs. ECJ: quis iudicabit?.....	259
2. Criteria for assessing an ECB programme's legality .....	261
a) Compliance with the ECB's monetary policy mandate .....	261
b) Proportionality in relation to the objectives of monetary policy.....	262
c) Compatibility with the prohibition of monetary public sector financing.....	263
V. The legality of the PEPP.....	265
1. Proportionality of the PEPP .....	265
2. The PEPP's compatibility with the monetary financing prohibition.....	266
VI. Outlook .....	268
<b>R. Ultra Vires Review of SSM- and SRM-Measures? Reflections on the Recent Jurisprudence by the <i>Bundesverfassungsgericht</i> (<i>Berger</i>) .....</b>	<b>269</b>
I. Introduction.....	269
1. The PSPP-judgement of the <i>Bundesverfassungsgericht</i> .....	270
2. Consequences of the PSPP-judgement.....	271
3. The <i>Bundesverfassungsgericht</i> and the Banking Union .....	271
II. The Banking Union-judgement .....	272
1. The constitutional complaints.....	272
2. Decision regarding the SSM .....	273
a) Art. 127(6) TFEU and transfer of powers to the ECB .....	273
b) Independence of the SSM authorities and compensation of democratic deficits .....	274
aa) Compensating the ECB's independence .....	275
bb) Compensating the national authorities' independence.....	275
3. Decision regarding the SRM.....	276
a) Establishment of the SRB.....	276
b) Compensation of independence of the SRM .....	276
aa) Independence of the SRB .....	277
bb) Independence of the national resolution authority .....	277
III. Ultra vires review of SSM- and SRM-measures? .....	278
1. Starting points for ultra vires arguments.....	278
2. Procedural issues .....	278
a) Constitutional complaints by credit institutions .....	278
b) Indirect challenges before German administrative courts.....	279
IV. Conclusion .....	279
Index.....	281
